On Wednesday, Oct. 21, at 10 a.m., Duke will conduct a test of the DukeALERT notification system.

The test will include the various communication channels that would be used to notify the Duke community in the event of a life-threatening emergency.

For more information, visit: www.emergency.duke.edu

NOTIFICATION DURING AN EMERGENCY:

- E-mail will be sent to all Duke e-mail addresses.
- Recorded update at (919) 684-INFO (4636).
- Outdoor warning system may broadcast alerts on campus.
- Direct contact from emergency personnel and managers.
- Web and RSS feed at www.emergency.duke.edu.
- Tune in to news media for regular updates.
- Text messages: Sign up at www.emergency.duke.edu.
- Bulletins and fliers may be posted in buildings.
