On Wednesday, Oct. 22, at 10 a.m., Duke will conduct a test of the DukeALERT notification system.

The test will include the various communication channels that would be used to notify the Duke community in the event of a life-threatening emergency.

For more information, visit: www.emergency.duke.edu

**NOTIFICATION DURING AN EMERGENCY:**

- **E-mail** will be sent to all Duke e-mail addresses.
- **Outdoor warning system** may broadcast alerts on campus.
